**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm a customer of internet product and have been for quite some time. It is important for the consumer to have multiple choices when selecting a provider. I have had other providers and now im satisfied with Sonic. The other providers were choosing to make price increase whenever they wanted which was very unfair to me as a customer.

Please say NO to price hikes! We need a competitive market of product servers.

I formally had broadband and Now I have fiber today and having great internet service is critical to my home business.

Finally, please help the consumers to maintain great product services from various providers to ensure that we do not get priced gouged. Our communities deserve new innovative companies who are willing to provide improved services and we the consumers will have options.

Thank you

Felix Golden
